SportyBet Football Betting Rules

Complete rules (nothing left out) plus a plain-English breakdown of what every rule and bet type means

Source: https://sports.sportybet.com/ng/m/help/how-to-play/sports/football (scraped in full on Saturday, 7 November 2026). Part 1 is the explanation written in simple words. Part 2 is the complete, word-for-word rules page, all sections and all tables included.

PART 1 - WHAT ALL OF THIS MEANS (SIMPLE ENGLISH)

Read this first. It explains how SportyBet treats football bets, group by group. Part 2 then repeats every official rule word for word, so you can check anything Part 1 says against the original.

1. The ground rules: which part of the match counts

The 90-minute rule. Every bet on a football match is settled on regular time plus injury (added) time only. That is roughly 90 minutes of play plus whatever the referee adds. Extra time, the pause for a penalty shootout and anything after that never count, unless the bet itself is an extra-time or shootout bet. If a team wins 2-1 in the 90 minutes and then there is a cup extra time, your match bets are still settled on 2-1.

The 48-hour rule. If a match is interrupted (weather, floodlights, crowd trouble) and it resumes within 48 hours of the original kick-off, all bets stay open and are settled on the final result. If it never resumes within 48 hours, every undecided bet is void and stakes go back.

When SportyBet can void a market. They keep the right to cancel bets when their odds were wrong: if a goal, red card or penalty already happened before the market opened, if a red card was missing or wrong, if the match clock on the screen was more than 5 minutes wrong, if a wrong score was shown (bets for that period are cancelled), if the team names or competition are displayed wrongly, or if VAR changes a score, card, corner or penalty after bets were taken. Void means nobody wins or loses; stakes are refunded.

One way to read all of this: the "official" result of a match for betting is the score at the final whistle of the 90 minutes plus injury time. Everything else is detail SportyBet spells out so nobody can argue after the game.

2. Corners and cards have their own counting rules

Corners only count when taken. A corner awarded but never taken (the referee whistled but play moved on, or the half ended) does not count. The time of a corner is the moment it is actually taken, not when it was awarded. This matters for all the "corner in minute X" bets.

How cards are counted. A yellow card counts as 1 booking, a straight red counts as 2, and a yellow-then-red (second yellow) counts as 2, because the second yellow is ignored. One player can therefore never be worth more than 3 bookings.

How booking points work. A separate family of bets uses points: yellow = 10 points, red (or yellow-red) = 25 points, second yellow ignored, so one player can never be worth more than 35 points.

What never counts: cards shown after the match ends, cards for anyone who is not a playing player (managers, bench players, players already substituted off), and a card shown at half-time counts as a second-half card, not first-half.

Statistics markets use Opta data. For bets on shots, saves, fouls, throw-ins, offsides, tackles and woodwork hits, the numbers that settle your bet come from the data company Opta, even if a league or broadcaster counts the same event slightly differently. Opta's count is the one that pays.

3. Player bets: the single most important rule

If the player you bet on plays even one minute (starter or substitute), the bet is valid and settles on whatever he did. If he never enters the pitch at all, the bet is void and refunded. A few stat markets are different: for Player

Shots on Goal, Shots, Assists, Tackles, Passes, To Be Carded, Not to Score and player head-to-heads, the rules in Part 2 apply as written there.

Goalscorer bets: your own goals do not count (an own goal by the other team is not a goal for any listed player). Every player who took part is a runner, so an unlisted player scoring does not cancel bets on listed players. Players not in the matchday squad, bench players who never came on, and late substitutes (for First Goalscorer) are void.

Assists: the final touch (pass, shot, any touch) that leads directly to a teammate scoring. No assist for own goals, penalties, goals straight from corners, or goals straight from direct free kicks. If a defender's deflection made the pass, it may not count. The "pre-assist" (the pass before the assist) is not an assist and never pays.

4. Result bets: the classics

1X2 is the basic three-way result: 1 = home win, X = draw, 2 = away win, on the 90 minutes.

Double Chance covers two of the three results in one bet: 1X (home win or draw), X2 (draw or away win), 12 (either team wins). Lower odds, but you win two ways.

Draw No Bet takes the draw out: if the match is drawn your stake is returned, if your team wins you are paid, if they lose you lose. Home No Bet and Away No Bet are the same idea with the named team's win voiding the bet instead.

1UP and 2UP are early-payout promotions in bet form. 1UP wins as soon as your team goes one goal ahead, even if they later draw or lose. 2UP wins as soon as your team goes two goals ahead, even if they later lose it. The draw side of 1UP settles normally on full time. If a match is abandoned while a team is two goals ahead, 2UP selections are still paid as winners.

1X2 Never Down pays only if your team wins without ever going behind at any point. If they fall behind even once and come back to win 3-2, the bet loses. A draw bet settles like a normal 1X2 draw.

Handicap gives one team a head start in goals, shown in brackets. Example: Handicap (-1) means your team must win by 2 or more goals for your bet on them to win; if they win by exactly 1, the handicap result is a draw.

Asian Handicap is handicap betting with half and quarter lines that remove or split the outcome. Half lines (0.5, 1.5) can only win or lose. Whole lines (1, 2) can also be void (stake back) on an exact tie. Quarter lines (0.25, 0.75, 1.25) split your stake into two halves: one half at the whole line, one half at the half line, so you can win half and lose half. Example: -0.75 means half your stake is on -0.5 and half on -1.0. The full line-by-line settlement table is in Part 2.

5. Goal bets

Over/Under bets on the total number of goals. Half lines (2.5) always win or lose: over 2.5 needs 3 or more goals, under 2.5 needs 2 or fewer. Whole lines (2.0) can void: exactly 2 goals means stake back. Quarter lines (2.25, 2.75) split the stake in halves, the same way Asian Handicaps do. Example: over 2.75 with 3 goals scored = half your stake wins, half is refunded; with 4 goals all of it wins.

Team totals apply over/under to one team only. **GG/NG** asks whether both teams score (GG = both score, NG = at least one fails to). **Exact Goals** predicts the precise total. **Goal Range** predicts a band (like 2-3 goals). **Odd/Even** predicts whether the total goals number is odd or even; 0-0 counts as even. **Multigoals** predicts a band such as 1-2 or 3-5 goals. **Clean Sheet** bets ask whether a team keeps a clean sheet (concedes zero). **Teams to Score** predicts which team(s) score at all. **Winning Margin** predicts how many goals the winner wins by.

Both-halves bets ask whether a team scores in both halves, or wins both halves, or whether each half goes over a line. **Highest Scoring Half** predicts which half has more goals; a tie (1-1 across halves) is settled by the options offered on the ticket.

Correct Score predicts the exact full-time score. **Half Time/Full Time (HT/FT)** predicts who leads at half-time AND who wins at full time (9 combinations like X/1, 2/2). **Winning Method** predicts the winner and how they win

(for two-legged ties the combined result of both legs is used). **Multiscores** predicts the final result from a listed set of scores.

6. Half-time, time-window and Nth-event markets

Most big markets come in a 1st Half and 2nd Half version: the same bet but settled on only that half. There are also **Nth goal** bets (which team scores the 1st, 2nd, 3rd... goal), **last goal**, **next goal**, and **rest of match** bets (which team wins the rest of the game from now, ignoring the current score).

Time-window markets work inside 5, 10 or 15 minute windows (for example: goals, corners or cards between minute 31 and 45), and some go down to single minutes. Injury time counts inside the window it belongs to (a goal in first-half added time belongs to the 41-45 window). **Interval markets are judged by the moment the event actually happens:** a goal counts when the ball crosses the line, a corner when it is taken, a card when it is shown, an offside or penalty when the referee (or VAR) gives the decision, all by the TV-announced time or the match clock if TV time is unavailable. A penalty awarded but never taken does not count.

Next Scoring Type bets on how the next goal happens: free kick/corner (directly scored from it; deflections count if the taker is credited), penalty (direct from the spot only, rebounds do not count), own goal, header (last touch with the head), or shot (anything else).

7. Corners and cards as markets

Corners get the full treatment: **Corners 1X2** (which team gets more corners), Nth corner, last corner, corner handicap, over/under corners for the match or for each team, exact corners, corner ranges, odd/even corners, race to X corners, and 1st-half versions of all of them, plus 5/10/15-minute corner windows. Remember: only taken corners count.

Cards get the same treatment: **Booking 1X2** (which team gets more bookings), Nth booking, total bookings over/under, exact bookings, booking point over/under and ranges (10 per yellow, 25 per red), sending-off bets (will anyone be sent off, for the match or one team), all in full-match, 1st-half and time-window versions.

8. Combo, "or", overtime and shootout markets

Combo markets join two predictions in one bet, shown with "&": 1X2 & GG/NG, Over/Under & GG/NG, 1X2 & Over/Under, Double Chance & GG/NG, Double Chance & Over/Under, HT/FT & Over/Under, Nth Goal & 1X2 and more. Both parts must be right for the bet to win, which is why the odds are bigger.

"Or" markets join two predictions but pay if EITHER one happens: Home Team or Over Goals (home wins OR total goals goes over), Draw or GG/NG, Away Team or Any Clean Sheet, and so on. Safer, smaller odds.

Cup matches (which can go to extra time and penalties) also have markets specifically about those periods: overtime 1X2, overtime over/under, overtime correct score, overtime handicap, and a full family of penalty-shootout markets (winner, winning margin, over/under, exact goals, odd/even, Nth penalty scored, team totals, correct score). These settle on the extra time or shootout only, not the 90 minutes.

9. Quick glossary

Void = the bet never had a result; stake returned. **Runner** = an option that is active for settlement. **Regular time** = 90 minutes plus injury time. **Line** = the number in an over/under or handicap bet. **Quarter line** = the stake is split into two halves. **GG/NG** = both teams score / not both score. **Clean sheet** = conceding zero goals. **Booking points** = 10 per yellow, 25 per red. **Opta** = the official statistics provider used to settle stat bets.

PART 2 - THE COMPLETE OFFICIAL RULES (WORD FOR WORD)

Everything below is the full Football rules page as SportyBet publishes it, every section and every table included. Section headings are kept exactly as they appear on the page.

Football

General Rules

All markets (except halftime, first-half markets, overtime and penalty shootout) are considered for regular time plus injury time. Unless otherwise stated for specific bet typologies overtimes and penalty shootouts will not affect the outcome of the bet.

If a match is interrupted and continued within 48h after initial kickoff, all open bets will be settled with the final result. Otherwise all undecided bets are considered void.

Regular 90 Minutes: Markets are based on the result at the end of a scheduled 90 minutes play unless otherwise stated. This includes any added injury or stoppage time but does not include extra-time, time allocated for a penalty shootout or golden goal.

If the market remains open when the following events have already taken place: goals, red or yellow-red cards and penalties, we reserve the right to void betting. If the market was opened with a missing or incorrect red card, we reserve the right to void betting. If odds were offered with an incorrect match time (more than 5 minutes), we reserve the right to void betting. If a wrong score is entered, all markets will be cancelled for the time when the incorrect score was displayed. If a match is interrupted or postponed and is not continued within 48h after initial kick-off date betting will be void. If the team names or category are displayed incorrectly, we reserve the right to void betting. In case of any score or card/corner/penalty related changes, we reserve the right to void betting on any video assistant referee (VAR) situation.

Corners

Only taken corners will be considered, corners awarded but not taken would not be counted.

The time used is time corner was taken.

Bets will be settled on the exact time the corners are taken rather than awarded or detailed by relevant third-party feed providers. If any resulting corner is not taken, it will not count for betting purposes.

Bookings

Yellow card counts as 1 card and red or yellow-red card as 2. The 2nd yellow for one player which leads to a yellow red card is not considered. As a consequence one player cannot cause more than 3 cards.

Settlement will be made according to all available evidence of cards shown during the regular 90 minutes play. Cards shown after the match are not considered.

Cards shown during half-time break will be settled as cards shown into the second half.

Cards for non-players (already substituted players, managers, players on the bench) are not considered.

Yellow card counts as 10 points and red or yellow red cards as 25. The 2nd yellow for one player which leads to a yellow red card is not considered. As a consequence, one player cannot cause more than 35 booking points.

Football Statistics

Settlement for all football statistics markets (shots, shots on target, saves, fouls, throw-ins, goal kicks, offsides, tackles and woodwork hits) will be determined exclusively by Opta data. Please note that Opta’s definitions may differ from those used by individual governing bodies or leagues for the same statistics.

Player Markets

Player Markets are considered markets based on individual player performance. If the selected player participates in the match, all Player Markets bets associated with that player will be considered valid, regardless of whether they started as a starter or entered as a substitute. The bet will be considered valid for settlement regardless of the time the player was on the field. However, if the player does not participate in the match at all, all bets on that player will be voided. The aforementioned rules do not apply to the following markets (including overtime): Player Shots on Goal, Player Shots, Player Assists, Player Tackles, Player Passes, Player To Be Carded, Player Not to Score and Player H2Hs.

Anytime/Last/Next Goalscorer and Player to Score X or More

Own goals will not be considered for Anytime Goalscorer or Player to score X or more settlement purposes and are ignored.

All players who took part in the match since kick off or previous goal are considered as runners.

All players who are currently taking part are listed.

If for any reason an unlisted player scores a goal all bets on listed players stand.

The following type of players are voided: Non fielders: Players who were not announced in the match day squad. Bench-players: Players who were announced in the squad but remained on the substitute bench and did not play in the game.

Market will be settled based on TV insert and statistics provided by Press Association unless there is clear evidence that these statistics are not correct.

First Goalscorer

Own goals will not be considered for Next Goalscorer settlement purposes and are ignored.

All players who took part in the match since kick off or previous goal are considered as runners.

All players who are currently taking part are listed.

If for any reason an unlisted player scores a goal all bets on listed players stand.

The following type of players are voided: Non fielders: Players who were not announced in the match day squad. Bench-players: Players who were announced in the squad but remained on the substitute bench and did not play in the game. Late Substitutes: Players who came into the game, after the first goal was scored

Market will be settled based on TV insert and statistics provided by Press Association unless there is clear evidence that these statistics are not correct.

Player Assists

A final contribution (pass, shot or any other touch of the ball) made by a player leading to the receiving teammate scoring a goal.

An assist may not be counted if the attempt is deflected via an opposition player and the recipient was unlikely to have received the ball without the deflection.

Assists are not given for own goals, penalties, goals scored directly from corners or goals scored directly from direct free kicks.

MLS Pre-Assist rule

A Pre-Assist does not count as an assist for betting purposes.

This statistic is not recognized as an official assist and is not included when settling any assist-related markets.

Only the official assist is used for settlement.

If a player makes the pass before the assist, it does not qualify and is ignored for betting.

Player Goals

The number of goals scored by a player in the opposition net.

A goal may not be counted if the attempt is off-target and deflected into the net via an opposition player (own goal).

Player Total Attempted Passes

Predict the total number of successful passes, assists, and failed passes.

Player Passes

Predict how many passes will a player attempt in the match. Overtime included. Bets on non-starters will be voided.

Player Shots

Predict the total number of shots on goal, goals, shots off target, and shots hitting the post.

Player Shots on Target

Predict the total number of shots on goal and goals.

Player Offsides

Predict the total number of offsides.

Player Assists

Predict the total number of assists.

Player Shots on Target from Outside Box

Predict the total number of shots on target and goals from outside the penalty box.

Player Score from Outside Box

Predict the total number of goals scored from outside the penalty box.

Player Fouls

Predict the total number of fouls committed by the player.

Player 1st Half Shots on Target

Predict the total number of shots on goal and goals during the first half.

Player 2nd Half Shots on Target

Predict the total number of shots on goal and goals during the second half.

Player Shots on Target Each Half

Predict the total shots on target made by a player in each half

Player Steals

Predict the total number of steals made by the player.

Player Tackles

Predict the total number of tackles made by the player.

First Player Booked

Predict which player will receive the first card in the match.

Player To Be Carded

Predict whether the player will receive a yellow card or a red card.

First Goalscorer

Predict which player will score the first goal in the match.

Last Goalscorer

Predict which player will score the last goal in the match.

To Score in First 10 Mins

Predict whether the player will score a goal within the first 10 minutes.

Player To Score In 1st Half

Predict whether the player will score a goal in the first half.

Player To Score In 2nd Half

Predict whether the player will score a goal in the second half.

Player To Score in Both Halves

Predict whether the player will score at least one goal in each half.

To Score a Header

Predict whether the player will score a goal with a header.

Player To Score a Free-Kick

Predict whether the player will score a goal from a direct free kick.

Player To Score with Right Foot

Predict whether the player will score a goal with their right foot.

Player To Score with Left Foot

Predict whether the player will score a goal with their left foot.

Player Right Foot Shots on Target

Predict the total number of shots on goal and goals made with the right foot.

Player Left Foot Shots on Target

Predict the total number of shots on goal and goals made with the left foot.

First To Score for Their Team

Predict which player will score the first goal for their team.

To Score or Assist

Predict whether the player will either score a goal or provide an assist.

To Score and Assist

Predict whether the player will both score a goal and provide an assist.

Player Saves

Predict the total number of saves made by the goalkeeper. A save is every situation in which the goalkeeper intercepts a shot on goal.

Player Total Shots

Any clear attempt by a player to score a goal (on target, off target or blocked).

Shots going over or wide or saved by the goalkeeper are included.

Blocked shots by any players are included.

Shots that hit the frame are included.

Set-piece attempts (corners or free kicks) that have no clear intent to score a goal and do not directly result in a goal are not included.

Other attempts that have no clear intent to score a goal, such as a cross-cum-shot or flick-on, that do not directly result in a goal are not included.

A shot can be made with any part of the body as long as it is legal according to the rules of the game.

Player Total Shots On Goal

An attempt by a player which directly results in a goal (regardless of clear intent to score a goal), or, a clear attempt by a player to score a goal that clearly would have went into the net if not for a goalkeeper save or a stop made by the last-man (with the goalkeeper clearly unable to save).

Shots that hit the frame and directly go into the net resulting in a goal are included.

Shots that hit the frame and do not directly go into the net are not included.

Blocked shots by any players not considered the last-man are not included.

Set-piece attempts (corners or free kicks) that have no clear intent to score a goal and do not directly result in a goal are not included.

Other attempts that have no clear intent to score a goal, such as a cross-cum-shot or flick-on, that do not directly result in a goal are not included.

A shot can be made with any part of the body as long as it is legal according to the rules of the game.

Player Total Passes

Attempted pass (successful or unsuccessful) with the clear intention of one player to find a teammate.

Open-play passes are included. Goal kicks, free kicks, or corners that are played as an attempted pass (played short) are included.

Crosses, throw-ins, and keeper throws are not included.

A pass can be made with any part of the body as long as it is legal according to the rules of the game.

Player Total tackles

When a player connects with the ball in a ground challenge, successfully takes the ball away from the player in possession.

All outcomes of a successful tackle are included (player/teammate takes possession, the ball goes out of play or the ball goes to an opposition player).

Missed tackles (failed attempts), aerial duels, fouls, and pass interceptions are not included.

The tackled player must clearly be in possession of the ball before the tackle is made.

Posts and Crossbars Markets

A shot that hits the post or crossbar and then results in a goal will count as a goal, not as woodwork (post or crossbar).

Interval Markets

Markets will be settled based on the goal time announced by TV. If this is not available, the time according to the match clock is considered.

Goal markets are settled based on the time the ball crosses the line, and not the time the kick is made.

Corner interval markets are settled based on the time the corner kick is taken and not the time the corner is conceded or awarded.

Booking interval markets are settled based on the time the card is shown and not the time the infringement is made.

Offsides will be settled based on the time when the referee gives the decision.

This rule will be applied on any video assistant referee (VAR) situation.

Penalty markets will be settled based on the time when the referee gives the decision. This rule will be applied on any video assistant referee (VAR) situation.

Penalties awarded but not taken are not considered.

For all 5 min/10 min/15 min interval markets, related to interval minutes 41- 45/31-40/31-45, events (goals, corners) in added injury or stoppage time will be accounted for.

Next Scoring Type

Freekick: The goal has to be scored directly from the freekick or corner to qualify as a goal by freekick. Deflected shots count as long as the freekick or corner taker is awarded the goal.

Penalty: Goal must be scored directly from the penalty. Goals after a rebound of a missed penalty do not count.

Own Goal: If goal is declared as an own goal.

Header: The scorers last touch has to be with the head.

Shot: Goal has to be with any other part of the body than the head and the other types do not apply.

No Goal.

1X2

Which team will win the match. Overtime not included.

1UP

1UP will reward you earlier if your team takes a one-goal lead, e.g. 1-0, 2-1. Once settled, the final result no longer matters - win, lose or draw!

Betting on the draw in this market is the same as in regular 1X2, it is resulted on the full-time score regardless of how and when any goals are scored (which is why the odds are the same).

2UP

2UP will reward you earlier if your team takes a two-goal lead, e.g. 2-0, 0-2, 3-1, 1-3. Once settled, the final result no longer matters - win, lose or draw!

If a match is abandoned and a team has gone two or more goals ahead then bets on that selection will still be paid as winners.

1X2 - Never Down

Never Down will reward you if your team wins the match without ever trailing. If your team goes one or more goals behind at any point, the selection loses, even if they later come back to win. If you bet on Draw, the bet wins if the match ends in a Draw (Regular 1X2). If a match is abandoned after a team goes behind, bets on that selection will be settled as lost. SportyBet reserves the right to void selections in cases of identified integrity issues or abusive behaviour.

Double Chance

Predict the match result combining two of the three possible outcomes (1X, X2 or 12).

Draw No Bet

Predict the winner of the match. If the teams draw, the selection will be voided.

Home No Bet

Predict the result at regular time. If Home team wins, the selection will be voided.

Away No Bet

Predict the result at regular time. If Away team wins, the selection will be voided.

Handicap

Predict the winner in regular time taking in consideration the handicap in brackets.

Asian Handicap

Predict the winner in regular time taking in consideration the handicap in brackets. Quarter ball (0.25; 0.75; 1.25 etc.) advantage can be settled as won,lost or half won/half lost while the other half of the stake is returned. Half ball (0.5; 1.5; 2.5 etc.) advantage can be settled as won or lost. Whole ball (1; 2; 3 etc.) advantage can be settled as won, lost or void.

Tickets are settled according to the full-time result using the following logic:

Handicap Line 0

The team that wins by any margin is to be settled as the winning selection. In the event of a draw all tickets are void.

Handicap Line 0.25

If the team that is giving (-) a 0.25 ball start:

Wins - All tickets on this selection are settled as won

Draws - Half the stake is void, the other half is settled as lost

Loses - All tickets on this selection are settled as lost

If the team that is receiving (+) a 0.25 ball start:

Wins - All tickets on this selection are settled as won

Draws - Half the stake is settled at the odds of the chosen selection, the other half is void

Loses - All tickets on this selection are settled as lost

Handicap Line 0.5

If the team that is giving (-) a 0.5 ball start:

Wins - All tickets on this selection are settled as won

Draws - All tickets on this selection are settled as lost

Loses - All tickets on this selection are settled as lost

If the team that is receiving (+) a 0.5 ball start:

Wins - All tickets on this selection are settled as won

Draws - All tickets on this selection are settled as won

Loses - All tickets on this selection are settled as lost

Handicap Line 0.75

If the team that is giving (-) a 0.75 ball start:

Wins by ≥2 goals - All tickets on this selection are settled as won

Wins by 1 goal - Half the stake is settled at the odds of the chosen selection, the other half is void

Draws or Loses - All tickets on this selection are settled as lost

If the team that is receiving (+) a 0.75 ball start:

Wins or Draws - All tickets on this selection are settled as won

Loses by 1 goal - Half the stake is void, the other half is settled as lost

Loses by ≥2 goals - All tickets on this selection are settled as lost

Handicap Line 1.0

If the team that is giving (-) a 1.0 ball start:

Wins by ≥2goals - All tickets on this selection are settled as won

Wins by 1 goal - All tickets on this selection are void

Draws or Loses - All tickets on this selection are settled as lost

If the team that is receiving (+) a 1.0 ball start:

Wins or Draws - All tickets on this selection are settled as won

Loses by 1 goal - All tickets on this selection are void

Loses by ≥2 goals - All tickets on this selection are settled as lost

Handicap	Team result	Bet result	Handicap	Team result	Bet result
0	Win	Win	0	Win	Win
Draw	Void	Draw	Void		
Lose	Lose	Lose	Lose		
-0.25	Win	Win	0.25	Win	Win
Draw	Half lose	Draw	Half win		
Lose	Lose	Lose	Lose		
-0.5	Win	Win	0.5	Win	Win
Draw	Lose	Draw	Win		
Lose	Lose	Lose	Lose		
-0.75	Win by 2+	Win	0.75	Win	Win
Win by 1	Half win	Draw	Win		
Draw	Lose	Lose by 1	Half Lose		
Lose	Lose	Lose by 2+	Lose		
-1	Win by 2+	Win	1	Win	Win
Win by 1	Void	Draw	Win		
Draw	Lose	Lose by 1	Void		
Lose	Lose	Lose by 2+	Lose		
-1.25	Win by 2+	Win	1.25	Win	Win
Win by 1	Half lose	Draw	Win		
Draw	Lose	Lose by 1	Half win		
Lose	Lose	Lose by 2+	Lose

Lose	Lose	Lose by 2+	Lose		
-1.75	Win by 3+	Win	1.75	Win	Win
Win by 2	Half win	Draw	Win		
Win by 1	Lose	Lose by 1	Win		
Draw	Lose	Lose by 2	Half lose		
Lose	Lose	Lose by 3+	Lose		
-2	Win by 3+	Win	2	Win	Win
Win by 2	Void	Draw	Win		
Win by 1	Lose	Lose by 1	Win		

Handicap	Team result	Bet result	Handicap	Team result	Bet result
Draw	Lose	Lose by 2	Void		
Lose	Lose	Lose by 3+	Lose		

Over/Under

Predict whether the total number of goals scored in regular time is over/under a given line. Quarter line (0.75; 1.25; 1.75 etc.) can be settled as won, lost or half won/half lost while the other half of the stake is returned. Half line (0.5; 1.5; 2.5 etc.) can be settled as won or lost. Whole line (1; 2; 3 etc.) can be settled as won, lost or void.

Tickets are settled according to the full-time result using the following logic:

Over/Under 2.0

Bets on under 2 goals:

<2 goals scored - All tickets on this selection are settled as won

2 goals scored - All tickets on this selection are void

>2 goals scored - All tickets on this selection are settled as lost

Bets on over 2 goals:

<2 goals scored - All tickets on this selection are settled as lost

2 goals scored - All tickets on this selection are void

>2 goals scored - All tickets on this selection are settled as won

Over/Under 2.25

Bets on under 2.25 goals:

<2 goals scored - All tickets on this selection are settled as won

2 goals scored - Half the stake is settled at the odds of the chosen selection, the other half is void

>2 goals scored - All tickets on this selection are settled as lost

Bets on over 2.25 goals:

<2 goals scored - All tickets on this selection are settled as lost

2 goals scored - Half the stake is void, the other half is settled as lost

>2 goals scored - All tickets on this selection are settled as won

Over/Under 2.5

Bets on under 2.5 goals:

≤ 2 goals scored - All tickets on this selection are settled as won

>2 goals scored - All tickets on this selection are settled as lost

Bets on over 2.5 goals:

≤ 2 goals scored - All tickets on this selection are settled as lost

>2 goals scored - All tickets on this selection are settled as won

Over/Under 2.75

Home Team Over/Under

Predict whether the total number of goals scored by Home team in regular time is over/under a given line.

Away Team Over/Under

Predict whether the total number of goals scored by Away team in regular time is over/under a given line.

GG/NG

Predict whether both teams will score in the match at regular time. *Yes (GG both teams score) *No (NG any team not to score).

To Qualify

Predict which team will qualify to the next round.

Exact Goals

Predict the exact number of goals at regular time.

Will There Be Overtime

Predict whether overtime will be played in the match.

Goal Range

Predict the range of goals scored at regular time.

Odd/Even

Predict whether the total number of goals in the match will be odd or even. No goal counts as even.

Winning Margin

Predict by how many goals the winning team will win the match.

Teams to Score

Predict which team will score in the match.

1X2 & GG/NG

Predict the winner in regular time and whether both teams will score.

Over/Under & GG/NG

Predict whether the total number of goals at regular time is over/under a given line and if both teams will score.

1X2 & Over/Under

Predict the winner in regular time and whether the total number of goals at regular time is over/under a given line.

1st/2nd Half GG/NG

Will both teams score at least one goal each during 1st/2nd half.

Correct Score

Predict the correct score at the end of regular time.

Half Time/Full Time

Predict the result at the end of the 1st half and the final result at regular time.

Winning Method

Predict the winning team and the winning method in the match. Please note match with multiple legs will consider a combined result of all legs.

Double Chance & GG/NG

Predict the match result combining two of the three possible outcomes and whether both teams will score.

Double Chance & Over/Under

Predict the match result combining two of the three possible outcomes and whether the total number of goals scored in regular time are over/under a given line.

Next Goal

Predict which team will score the Nth goal in the match.

Last Goal

Predict which team will score the last goal in the match.

When Will the Nth Goal Be Scored (10 min interval)

Predict at which time interval (10mins) will the Nth goal be scored.

5/10/15 minutes - Nth Goal from a to b

Predict which team will score the Nth goal within a time interval of 5/10/15 mins from start time point to end time point.

5/10/15 minutes – Over/Under from a to b

Predict whether the total number of goals within a time interval of 5/10/15 mins from start time point to end time point is over/under a given line.

Overtime & Goal

Predict whether there is overtime match and goal in overtime match. This game is only available to those match that allow overtime, for example, cup match.

*Yes (there is overtime and goal in the overtime) *No (there is no overtime or there is no goal in the overtime).

Overtime – 1X2

Predict the winner in the overtime.

Overtime - Nth Goal

Predict which team will score the Nth goal during the overtime.

Overtime – Over/Under

Predict whether the total number of goals scored during the overtime will be over/under a given line.

Overtime – Handicap

Predict the result in the overtime while taking the handicap into consideration.

Overtime - Correct Score

Predict the correct score in the overtime.

Penalty Shootout - Winning Margin

Predict by how many goals the winning team will win the penalty shootout.

Penalty Shootout – Over/Under

Predict whether the total number of goals scored during the penalty shootout is over/under a given line.

Penalty Shootout - Exact Goals

Predict the exact number of goals in the penalty shootout.

Penalty Shootout - Odd/Even

Predict whether the total number of goals in penalty shootout will be odd or even.

Penalty Shootout - Nth Penalty Scored

Will the Nth penalty be scored.

Penalty Shootout - Nth Goal

Which team will score the Nth goal in penalty shootout.

Penalty Shootout - Home Over/Under

Predict whether the total number of goals scored by Home team in penalty shootout is over/under a given line.

Penalty Shootout – Away Over/Under

Predict whether the total number of goals scored by Away team in penalty shootout is over/under a given line.

Penalty Shootout - Home Odd/Even

Predict whether the total number of goals scored by Home team in penalty shootout will be odd or even. No goal counts as even.

Penalty Shootout - Away Odd/Even

Predict whether the total number of goals scored by Away team in penalty shootout will be odd or even. No goal counts as even.

Penalty Shootout - Correct Score

Predict the correct score in the penalty shootout.

Home Team Exact Goals

Predict the exact number of goals scored by Home team in regular time.

Away Team Exact Goals

Predict the exact number of goals scored by Away team in regular time.

Home Team Odd/Even

Predict whether the total number of goals scored by Home team in regular time will be odd or even. No goal counts as even.

Away Team Odd/Even

Predict whether the total number of goals scored by Away team in regular time will be odd or even. No goal counts as even.

Home Team Clean Sheet

Will Home team keep a clean sheet in regular time.

Away Team Clean Sheet

Will the Away team keep a clean sheet in regular time.

Multigoals

Predict how many goals will be scored in regular time.

Home Multigoals

Predict how many goals will Home team score in regular time.

Away Multigoals

Predict how many goals will Away team score in regular time.

Multiscores

Predict the final result of the game in regular time.

1st Half – Multigoals

Predict how many goals will be scored in 1st half.

2nd Half - Multigoals

Predict how many goals will be scored in 2nd half.

Home Team to Score Both Halves

Predict if Home team will score in both halves.

Away Team to Score Both Halves

Predict if Away team will score in both halves.

Both Halves Over x.5

Predict whether the number of goals scored in each half is over the given line.

Both Halves Under x.5

Predict whether the number of goals scored in each half is under the given line.

1st Half - Home Team Over/Under

Predict whether the total number of goals scored by Home team in the 1st half is over/under a given line.

1st Half – Away Team Over/Under

Predict whether the total number of goals scored by Away team in the 1st half is over/under a given line.

1st Half - Exact Goals

Predict the exact number of goals scored in the 1st half.

1st Half – Home Team Exact Goals

Predict the exact number of goals scored by Home team in the 1st half.

1st Half – Away Team Exact Goals

Predict the exact number of goals scored by Away team in the 1st half.

1st half - Odd/Even

Predict whether the total number of goals scored in the 1st half will be odd or even. No goal counts as even.

1st Half – GG/NG

Will both teams score at least one goal each in the 1st half.

1st half – Home Team Clean Sheet

Will Home team keep a clean sheet in the 1st half.

1st half – Away Team Clean Sheet

Will Away team keep a clean sheet in the 1st half.

Player Assists

Predict whether a player will assist at regular time.

Player Goals

Predict whether a player will score at regular time.

1st Half - Correct Score

Predict the correct score in the 1st half.

2nd Half - Nth Goal

Predict which team will score the Nth goal in the 2nd half.

2nd Half - Home Team Over/Under

Predict whether the total number of goals scored by Home team in the 2nd half is over/under a given line.

2nd Half - Away Team Over/Under

Predict whether the total number of goals scored by Away team in the 2nd half is over/under a given line.

2nd Half - Exact Goals

Predict the exact number of goals scored in the 2nd half.

2nd Half - Odd/Even

Predict whether the total number of goals scored in the 2nd half will be odd or even. No goal counts as even.

2nd half – GG/NG

Will both teams score at least one goal each in the 2nd half.

2nd Half - Home Team Clean Sheet

Will the Home team keep a clean sheet in the 2nd half.

2nd Half - Away Team Clean Sheet

Will the Away team keep a clean sheet in the 2nd half.

2nd Half - Correct Score

Predict the correct score in the 2nd half.

Overtime 1st Half – 1X2

Predict the winner in the 1st half of the overtime.

Overtime 1st Half – Handicap

Predict the result in the 1st half of the overtime while taking the handicap into consideration.

Overtime 1st Half - Correct Score

Predict the correct score in the 1st half of the overtime.

Half Time/Full Time Correct Score

Predict the correct score at the end of the 1st half and the final result at regular time.

Home Team to Win Both Halves

Will Home team score more goals than the Away team in both halves.

Away Team to Win Both Halves

Will Away team score more goals than the Home team in both halves.

Home Team to Win Either Half

Will Home team win at least one of the halves.

Away Team to Win Either Half

Will Away team win at least one of the halves.

Highest Scoring Half

Predict in which half most goals will be scored.

Home Team Highest Scoring Half

Predict the half with most goals scored by Home team.

Away Team Highest Scoring Half

Predict the half with most goals scored by Away team.

Double Chance & 1st Half GG/NG

Predict the match result combining two of the three possible outcomes and whether both teams will score in the 1st half.

Double Chance & 2nd Half GG/NG

Predict the match result combining two of the three possible outcomes and whether both teams will score in the 2nd half.

1st Half - Double Chance & GG/NG

Predict the result in the 1st half combining two of the three possible outcomes and whether both teams will score in the 1st half.

2nd Half - 1X2 & GG/NG

Predict the result in the 2nd half and whether both teams will score in the 2nd half.

2nd Half - 1X2 & Over/Under

Predict the result in the 2nd half and whether the total number of goals scored in the 2nd half is over/under a given line.

2nd Half - Double Chance & GG/NG

Predict the result in the 2nd half combining two of the three possible outcomes and whether both teams will score in the 2nd half.

1st Half – 1X2

Which team will win the 1st half.

1st Half - Which Team Will Win the Rest

Which team will win the rest of the 1st half ignoring the current score.

1st Half - Nth Goal

Predict which team will score the Nth goal in the 1st half.

1st Half - Double Chance

Predict the result of the 1st half combining two of the three possible outcomes (1X, X2 or 12).

1st Half - Draw No Bet

Predict the winner of the 1st half. If the teams draw, the selection will be voided.

1st Half - Handicap

Predict the winner in 1st half taking in consideration the handicap in brackets.

1st Half – Over/Under

Predict whether the total number of goals scored in the 1st half is over/under a given line.

1st Half – 1X2 & GG/NG

Predict the result in the 1st half and whether both teams will score in the 1st half.

1st Half – 1X2 & Over/Under

Predict the result in the 1st half and whether the total number of goals scored in the 1st half is over/under a given line.

2nd Half – 1X2

Which team will win the 2nd half.

2nd Half - Double Chance

Predict the result of the 2nd half combining two of the three possible outcomes (1X, X2 or 12).

2nd Half - Draw No Bet

Predict the winner of the 2nd half. If the teams draw, the selection will be voided.

2nd Half - Handicap

Predict the winner in 2nd half taking in consideration the handicap in brackets.

2nd Half – Over/Under

Predict whether the total number of goals scored in the 2nd half is over/under a given line.

Booking 1X2

Predict which team will be given more bookings at regular time. *Yellow Card = 1 booking; *Red Card = 2 bookings. The second Yellow Card for a player which leads to a Red Card is not considered.

Nth Booking

Which team will be given the Nth booking.

Total Booking Points

Predict whether the total number of booking points in the regular time is over/under a given line. *Yellow Card = 10 points, *Red Card = 25 points. The second Yellow Card for a player which leads to a Red Card is not considered.

Total Bookings

Predict whether the total number of bookings given in the regular time is over/under a given line. *Yellow Card = 1 booking, *Red Card = 2 bookings. The second Yellow Card for a player which leads to a Red Card is not considered.

Home Team Total Bookings

Predict whether the total number of bookings given for Home team in the regular time is over/under a given line. *Yellow Card = 1 booking, *Red Card = 2 bookings. The second yellow card for a player which leads to a red

card is not considered.

Away Team Total Bookings

Predict whether the total number of bookings given for Away team in the regular time is over/under a given line. *Yellow Card = 1 booking, *Red Card = 2 bookings. The second yellow card for a player which leads to a red card is not considered.

Exact Bookings

Predict the exact number of bookings given at regular time. *Yellow Card = 1 booking, *Red Card = 2 bookings. The second yellow card for a player which leads to a red card is not considered.

Home Team Exact Bookings

Predict the exact number of bookings given to Home team in regular time. *Yellow Card = 1 booking, *Red Card = 2 bookings. The second yellow card for a player which leads to a red card is not considered.

Away Team Exact Bookings

Predict the exact number of bookings given to Away team in regular time. *Yellow Card = 1 booking, *Red Card = 2 bookings. The second yellow card for a player which leads to a red card is not considered.

Booking Point Range

Predict the range of booking points at regular time. *Yellow card = 10 points, *Red card = 25 points. The second Yellow card for a player which leads to a red card is not considered.

Sending Off

Predict if there will be player(s) sent off at regular time.

Home Team Sending Off

Predict if there will be Home team player(s) sent off at regular time.

Away Team Sending Off

Predict if there will be Away team player(s) sent off at regular time.

1st Half - Booking 1X2

Predict which team will be given more bookings in the 1st half. *yellow card = 1 booking; *red card = 2 bookings. The second Yellow Card for a player which leads to a Red Card is not considered.

1st Half - Nth Booking

Which team will be given the Nth booking in the 1st half.

1st Half - Total Booking Points

Predict whether the total number of booking points in the 1st half is over/under a given line. *yellow card = 10 points, *red card = 25 points. The second yellow card for a player which leads to a red card is not considered.

1st Half - Total Bookings

Predict whether the total number of bookings given in the 1st half is over/under a given line. *Yellow Card = 1 booking, *Red Card = 2 bookings.

1st Half – Home Team Total Bookings

Predict whether the total number of bookings given to Home team in the 1st half is over/under a given line. *Yellow Card = 1 booking, *Red Card = 2 bookings. The second yellow card for a player which leads to a red card is not considered.

1st Half – Away Team Total Bookings

Predict whether the total number of bookings given to Away team in the 1st half is over/under a given line. *Yellow Card = 1 booking, *Red Card = 2 bookings. The second yellow card for a player which leads to a red card is not considered.

1st Half - Exact Bookings

Predict the exact number of bookings given in 1st half. *Yellow Card = 1 booking, *Red Card = 2 bookings. The second yellow card for a player which leads to a red card is not considered.

1st Half – Home Team Exact Bookings

Predict the exact number of bookings given to Home team in the 1st half. *Yellow Card = 1 booking, *Red Card = 2 bookings. The second yellow card for a player which leads to a red card is not considered.

1st Half – Away Team Exact Bookings

Predict the exact number of bookings given to Away team in the 1st half. *Yellow Card = 1 booking, *Red Card = 2 bookings. The second yellow card for a player which leads to a red card is not considered.

1st Half - Booking Point Range

Predict the range of booking points in the 1st half. *yellow card = 10 points, *red card = 25 points. The second yellow card for a player which leads to a red card is not considered.

1st Half - Sending Off

Predict if there will be player(s) sent off in the 1st half.

1st Half - Home Team Sending Off

Predict if there will be Home team player(s) sent off in the 1st half.

1st Half – Away Team Sending Off

Predict if there will be Away team player(s) sent off in the 1st half.

5/10/15 minutes - Booking 1X2 from a to b

Predict which team will be given more bookings within 5/10/15 minutes interval.

*yellow card = 1 booking; *red card = 2 bookings. The second yellow card for a player which leads to a red card is not considered.

5/10/15 minutes - Total Bookings from a to b

Predict whether the total number of bookings given within 5/10/15 minutes interval is over/under a given line. *Yellow Card = 1 booking, *Red Card = 2 bookings. The second yellow card for a player which leads to a red card is not considered.

5/10/15 minutes - Sending Off from a to b

Predict if there will be player(s) sent off within 5/10/15 minutes interval.

5/10/15 minutes – Home Team Sending Off from a to b

Predict if there will be Home team player(s) sent off within 5/10/15 minutes interval.

5/10/15 minutes – Away Team Sending Off from a to b

Predict if there will be Away team player(s) sent off within 5/10/15 minutes interval.

Corners - 1X2

Predict which team will get most corners at regular time.

Nth Corner

Predict which team will get the Nth corner at regular time.

Last Corner

Predict which team will get the last corner at regular time.

Corner Handicap

Predict which team will get most corners at regular time taking in consideration the handicap in brackets.

Corners - Over/Under

Predict whether the total number of corners at regular time is over/under a given line.

Home Team Corners - Over/Under

Predict whether the total number of corners for the Home team at regular time is over/under a given line.

Away Team Corners - Over/Under

Predict whether the total number of corners for the Away team at regular time is over/under a given line.

Corner Range

Predict the range of awarded corners at regular time.

Home Team Corner Range

Predict the range of awarded corners for the Home team at regular time.

Away Team Corner Range

Predict the range of awarded corners for the Away team at regular time.

Odd/Even Corners

Predict whether the total number of corners in the match will be odd or even. No corner counts as even.

1st Half - Corner 1X2

Predict which team will get most corners in the 1st half.

1st Half - Nth Corner

Predict which team will get the Nth corner in the 1st half.

1st Half - Last Corner

Predict which team will get the last corner in the 1st half.

1st Half - Corner Handicap

Predict which team will get most corners in the 1st half taking in consideration the handicap in brackets.

1st Half Corners - Over/Under

Predict whether the total number of corners in the 1st half is over/under a given line.

1st Half - Home Corners Over/Under

Predict whether the total number of corners awarded to Home team in the 1st half is over/under a given line.

1st Half – Away Corners Over/Under

Predict whether the total number of corners awarded to Away team in the 1st half is over/under a given line.

1st Half - Home Exact Corners

Predict the exact number of corners awarded to Home team in the 1st half.

1st Half - Away Exact Corners

Predict the exact number of corners awarded to Away team in the 1st half.

1st Half - Corner Range

Predict the range of corners awarded in the 1st half.

1st Half - Odd/Even Corners

Predict whether the total number of corners in the 1st half will be odd or even. No corner counts as even.

5/10/15 minutes - Corners 1X2 from a to b

Predict which team will get most corners within 5/10/15 minutes interval.

5/10/15 minutes - Xth Corner from a to b

Predict which team will get the Xth corner within 5/10/15 minutes interval.

5/10/15 minutes - Corner Handicap from a to b

Predict which team will get most corners within 5/10/15 minutes interval taking in consideration the handicap in brackets.

5/10/15 minutes - Corners - Over/Under from a to b

Predict whether the total number of corners within 5/10/15 minutes interval is over/under a given line.

5/10/15 minutes - Home Corners - Over/Under from a to b

Predict whether the total number of corners awarded to Home team within 5/10/15 minutes interval is over/under a given line.

5/10/15 minutes - Away Corners - Over/Under from a to b

Predict whether the total number of corners awarded to Away team within 5/10/15 minutes interval is over/under a given line.

5/10/15 minutes - Odd/Even Corners from a to b

Predict whether the total number of corners within 5/10/15 minutes interval will be odd or even. No corner counts as even.

Race to X Corners

Which team will reach X corners in the game first.

1st Half - Race to X Corners

Which team will first reach X corners in the 1st half.

5/10/15 minutes – 1X2 from a to b

Predict the result within 5/10/15 minutes interval

Overtime - Which Team Will Win the Rest

Predict the result for the rest of the overtime.

Penalty Shootout – Winner

Predict the winner in the penalty shootout.

Penalty Shootout - Winner & Over/Under

Predict the winner in the penalty shootout and whether the total number of goals scored in the penalty shootout is over/under a given line.

Nth Goal & 1X2

Predict which team will score the Nth goal and which team will win the match.

Home Team to Win to Nill

Will Home team win the game and keep a clean sheet at regular time.

Away Team to Win to Nill

Will Away team win the game and keep a clean sheet at regular time.

Nth Penalty Scored

Will the Nth penalty be scored.

Rest Match Winner

Predict the result for the rest of the regular time.

Half Time/Full Time & Over/Under

Predict the result at the end of the 1st half and the final result at regular time and whether the total number of goals scored in the regular time is over/under a given line.

Half Time/Full Time & 1st Half Over/Under

Predict the result at the end of the 1st half and the final result at regular time and whether the total number of goals scored in the 1st half is over/under a given line.

Half Time/Full Time & Exact Goals

Predict the result at the end of the 1st half and the final result at regular time and the exact number of goals scored in regular time.

Home Team or Over Goals

Predict whether Home team will win or the total number of goals is over a given line.

Home Team or Under Goals

Predict whether Home team will win or the total number of goals is under a given line.

Draw or Over Goals

Predict whether the match will end in a draw at regular time or the total number of goals is over a given line.

Draw or Under Goals

Predict whether the match will end in a draw at regular time or the total number of goals is under a given line.

Away Team or Over Goals

Predict whether Away team will win or the total number of goals is over a given line.

Away Team or Under Goals

Predict whether Away team will win or the total number of goals is under a given line.

Home Team or GG/NG

Predict whether Home team will win or both teams will score at regular time.

Draw or GG/NG

Predict whether the match will end in a draw at regular time or both teams will score at regular time.

Away Team or GG/NG

Predict whether Away team will win or both teams will score at regular time.

Home Team or Any Clean Sheet

Predict whether Home team will win or any of the teams will keep a clean sheet at regular time.

Draw or Any Clean Sheet

Predict whether the match will end in a draw or any of the teams will keep a clean sheet at regular time.

Away Team or Any Clean Sheet

Predict whether Away team will win or any of the teams will keep a clean sheet at regular time.

1 minute – Over/Under from a to b

Predict whether the total number of goals within a time interval of 1 minute is over/under a given line.

1 minute – Over/Under Corners from a to b

Predict whether the total number of corners within a time interval of 1 minute is over/under a given line.

1 minute – Over/Under Bookings from a to b

Predict whether the total number of bookings within a time interval of 1 minute is over/under a given line.

1 minute – Over/Under Offsides from a to b

Predict whether the total number of offsides within a time interval of 1 minute is over/under a given line.

1 minute – Over/Under Penalties from a to b

Predict whether the total number of penalties within a time interval of 1 minute is over/under a given line.

Goal bounds - 1st Half

Goal Bounds - 1st Half is a bet where you predict the number of goals scored by both teams in a certain goal range in 1st half.

Goal bounds

Goal Bounds is a bet where you predict the number of goals scored by both teams in a certain goal range.

Goal bounds - Home

Goal Bounds - Home is a bet where you predict the number of goals scored by the Home team in a certain goal range.

Goal bounds - Away

Goal Bounds - Away is a bet where you predict the number of goals scored by the Away team in a certain goal range.

Excluded goals

Excluded Goals is a bet where you bet against a certain amount of goals in the match.

Excluded goals - Home

Excluded Goals - Home is a bet where you bet against a certain number of Home goals in the match.

Excluded goals - Away

Excluded Goals - Away is a bet where you bet against a certain number of Away goals in the match.

Excluded goals - 1st Half

Excluded Goals 1st Half is a bet where you bet against a certain number of goals in the First Half.
